Opening Doors to a New Beginning for a Deserving Family

Delaney has long been a proud sponsor and supporter of our local Habitat for Humanity projects, and recently three employees had the honor of delivering products and donating man hours to help a deserving family open a door to a new beginning.

Lynda Ilse, Isaac Dodd, and David Castillo spent the morning getting hands on with our products as they helped install bathroom accessories, door locks, and more for the DeSota Street project, the most recent build for Habitat for Humanity Hall County.

“It’s a great experience, not just getting out in the field and actually installing the product that we sell every day, but doing it for a family in need really makes you feel good,” said Isaac, Inside Sales Rep.

Delaney Hardware donated the locksets, bathroom accessories, trim hardware, and more to help with the completion of the project as part of our L.O.C.K. initiative – a service program found on the acts of Love, Outreach, Change, and Kindness.

An Open House celebration is scheduled for March 14th at 11:00AM with a program following at 11:30AM.
